## I. Introduction

The Dormitory Authority of the State of New York (DASNY) is a public benefit corporation that was established in 1944 under the laws of the State of New York (the State) to finance and build dormitories at State teachers' colleges to house soldiers returning from World War II and attending college under the GI Bill.

DASNY works in financing and constructing infrastructure for a variety of clients, including New York State and certain not-for-profit healthcare and higher education institutions as well as certain other not-for-profit institutions. It works on behalf of public and private clients to issue low-cost, tax-exempt bonds that play a critical role in helping New York State, and its healthcare and higher education institutions meet their capital needs so they can expand their resources and focus their attention and resources on service delivery.

It also performs construction management for public sector clients for scientific, life sciences and medical laboratories, academic centers and residence halls, hospitals, and other types of projects. Its work helps foster economic growth and supports entities that strengthen communities and make New York a better place to live, work and learn.

This report, along with DASNY's report to the Authorities Budget Office on operations and accomplishments, provides information on the important work DASNY delivers every year on behalf of the People of the State of New York.

## II. Scope

Section 2879 of the Public Authorities Law requires DASNY to annually prepare, approve and submit to DASNY's Board a report on procurement contracts, which shall include DASNY's Procurement Policy and Guidelines, with an explanation of any amendments thereto since the previous annual report (the "Report" or "DASNY's Procurement Contract Annual Report").

The Report includes all original procurements made by DASNY by contract, purchase order, or other written agreement, with a value of \$5,000 or more. This Report excludes certain non-contractual and other obligations of DASNY, including reimbursement of expenses paid to private institutions, grants, insurance settlements, fees paid to state regulatory agencies, land purchases, and payroll and fringe benefits. This Report also excludes amendments and change orders to original procurements.

This Report covers the period commencing April 1, 2023 and ending March 31, 2024 (the "Reporting Period"). Unless otherwise specified, all figures presented in the Executive Summary are for the Reporting Period. The Report lists detailed information on all DASNY contracts existing on April 1 of the Reporting Period and those awarded during the Reporting Period.

The Report also includes DASNY's Procurement Policy and Guidelines. The Procurement Policy and Procurement Contract Guidelines describe the policies and procedures of DASNY regarding the use, award, monitoring, and reporting of procurement contracts.

## IV. Minority - and Women-Owned Business Enterprises (MWBEs)

MWBE contract participation is central to DASNY's mission to create inclusive communities. DASNY has taken steps to create new opportunities for MWBEs, both by ensuring that MWBE participation is part of every contract discussion and by providing training information and guidance to facilitate their continued access and growth.

For the Reporting Period, DASNY projects total MWBE participation expenditures, including subcontractors, equaled a rate of approximately 36.43% representing a value of approximately \$215.3 million. However, Table 1 represents only original awards to MWBEs and does not reflect the total amount of work performed on behalf of DASNY by MWBEs.

**Table 1. Procurement Contracts Awarded to Prime MWBEs**

In addition, DASNY strives to achieve service-disabled, veteran-owned (SDVOB) business participation. DASNY continues to employ numerous strategies/programs designed to identify, notify, educate, and support SDVOB enterprises in DASNY's complete platform of services.

Further information is available in DASNY's Operations and Accomplishments report to the Authorities Budget Office.

## V. Construction and Client Services Awards

DASNY's Construction Division is responsible for the largest amount of spending at DASNY. Because of the complex nature and scale of many DASNY projects, any project may require numerous Procurement Contracts secured through a variety of procurement methodologies to provide planning, design, construction, and equipment and furniture fit out before completion.

## Professional Services

Professional services are services of a consulting, technical, and professional nature and include such services as architecture, engineering, construction management, and construction manager and pre-construction services on (CM) at risk contracts whereby the construction manager holds the construction contracts.

DASNY primarily uses two types of contracts to engage professional services providers:

1. Project-specific contracts

Project-specific, professional service contracts are procured and awarded through a qualification-based, request-for-proposal (RFP) process.

2. Professional Services Term Contracts

Professional Services Term Contracts are zero-dollar-based, competitively procured, professional-services contracts issued for a specified period, usually a four-year term. The specific scope of work and location where the services are to be provided are added to the contract via a work authorization. Professional services provided under term contracts include architectural design, engineering, testing, asbestos abatement design, and other specialized professional services.

The term contracting structure allows DASNY to quickly mobilize consultants to advance design and construction projects, promoting DASNY's ability to efficiently deliver for its clients.

**Table 5. Professional Service Project-Specific Awards by Type of Service**

Table 5 summarizes, by broad service category, the dollar value and number of all project-specific professional service contracts DASNY awarded during the Reporting Period (i.e., excludes term contracts that are discussed in item 2 above).

## Construction

Construction contracts are contracts for the phases of construction, such as site work, general construction, and the building trades (structural; plumbing; electrical and mechanical; and heating, ventilating, and cooling). DASNY's expansive capabilities and broad project portfolio result in a wide array of awards. DASNY primarily uses three types of contracts to engage construction contractors:

1. Project-specific contracts

Project-specific, construction contracts are generally awarded through a public, competitive bidding process.

2. Job Order Contracts

Job Order Contracts are term contracts set up regionally by trade. The initial term is typically one year with three one-year renewal options. Contractors competitively bid two adjustment factors (normal work hours and other than normal work hours) that will be applied to the unit prices in the JOC construction price books. The project limits for JOCs use are generally \$500,000 upstate and \$1,000,000 downstate. The specific scope of work and location where the services are to be provided are added to the contract via a job order. JOCs are a critical and effective contracting tool used to help DASNY achieve its construction mission. JOCs enable DASNY to rapidly engage contractors to perform construction services for emergencies, critical maintenance, and small-value projects.

3. General Contractor Minor Maintenance

General Contractor Minor Maintenance contracts are term contracts set up regionally. The initial term is typically two years with one two-year renewal option. The specific scope of work and location where the services are to be provided are added to the contract via a work order. Contractors competitively bid an agreed-upon markup percentage. GC Minor Maintenance projects are typically a single scope of work ranging in value from \$10,000 - \$80,000.

## Purchase Orders

Purchase orders are issued for the purchase of commodities of furniture and fixtures for buildings, such as residence hall and office furniture, medical equipment, computer equipment, and laboratory equipment.

DASNY primarily uses one method to procure commodities:

1. Project-specific purchase orders: Project-specific purchase orders are generally awarded through competitive quoting and bidding processes or using centralized government contracts.

Most procurements relate to costs of issuance for DASNY's financing process. Procurements primarily include underwriting/remarketing, financial consulting, trustee and custodian fees, and printing.
